EXPERIENCES

OCTOBER 2011 - NOW (4 YEARS 7 MONTHS)

FULL STACK DEVELOPER - DASSAULT SYSTEMES

Built an SPA enterprise social network for Dassault Systemes (DS). Users could join communities, share 3D medias, customize their private space and interact with other users. Worked with both backend and frontend problematics.

Sass JS Ext JS Java Bash

Released the mobile hybrid app of the previous social network. Built with Phonegap and rethinking for mobile with a responsive layout and some adaptive components. Also helped with the devops side.

Phonegap JS Redmine Jenkins Shell

Built a dashboarding app for DS. It gave in-house developers (2000+) some tools, a sandbox environment and some best practices for creating their product web-apps.

JS AMD Sass Spring

Developed a few libraries for DS in-house developers: a jQuery like library, a layouting component, a UI Kit framework for all of DS brands, a module loader, an event library and some other Javascript libraries.

JS Sass HTML

Improved the above libraries and products based on user feedbacks. Moved the team to Git by building a bridge between DS proprietary SCM and git.

JS Git Gitlab Bash

APRIL 2011 - OCTOBER 2011 (7 MONTHS)

JUNIOR DEVELOPER - DASSAULT SYSTEMES

Delivered two iOS apps for DS. One showcased their product portfolio and delivered company news and contact information. The other helped track customer incidents, progress and status. Additionally delivered an in-house Appstore for downloading the latest app.

Objective-C JS Sencha Touch

MAY 2010 - AUGUST 2010 (4 MONTHS)

JUNIOR DEVELOPER - ENGIE

Developed Java web crawlers for scrapping environmental data (temp, wind, solar...). Used by traders and data experts for commodity trading.

Java HTML Scraping

MAY 2009 - AUGUST 2009 (4 MONTHS)

JUNIOR DEVELOPER - PROBONO

Built a Java web-app for managing employees and legal contracts for a French health care company.

Java HTML CSS JS

EDUCATIONS

2006 - 2011 (5 YEARS)

MASTER OF ENGINEERING - ECE

Information Technology
Paris - France

2010 (1 YEAR)

EXCHANGE YEAR - UIB

Software Security &
Human Computer Interaction
Bergen - Norway

FALL 2008 (6 MONTHS)

EXCHANGE SEMESTER - CONCORDIA

Computer Science & Engineering
Montreal - Canada

SKILLS

JAVASCRIPT

Node, ES5/6, vanilla, Babel, jQuery, React, Mootools, Ext JS, Backbone, Require, ESLint, Karma, Jasmine, JSDoc, Lodash

HTML/CSS

Sass, Less, templating (Handlebar, Moustache, Haml, ERB), PostCSS

JAVA

Spring, Android, rest API

SHELL

Bash, unix or win, npm, Gulp, Grunt, Make

CREATIVE

Photoshop, Illustrator, InDesign, Sketch

OTHER

Objective-C, SQL, PHP, Ruby, Python, c, c++, c#, Jekyll, Ghost, WP, AWS, Docker, QT, Sublime, Maven, SVN, Git, Redmine, Jenkins, TeamCity, Gitlab, Github, Slack, Mailchimp

LANGUAGES

English, French, Spanish, Norwegian

HOBBIES

I'm a passionate climber, i like to run twice a week and i enjoy traveling and discovering new things. I'm always eager to experiment with new techs and share my findings.
